

Welcome to The GoBe Collective:

NightOwl & EarlyBird: Life at The Olive Tree

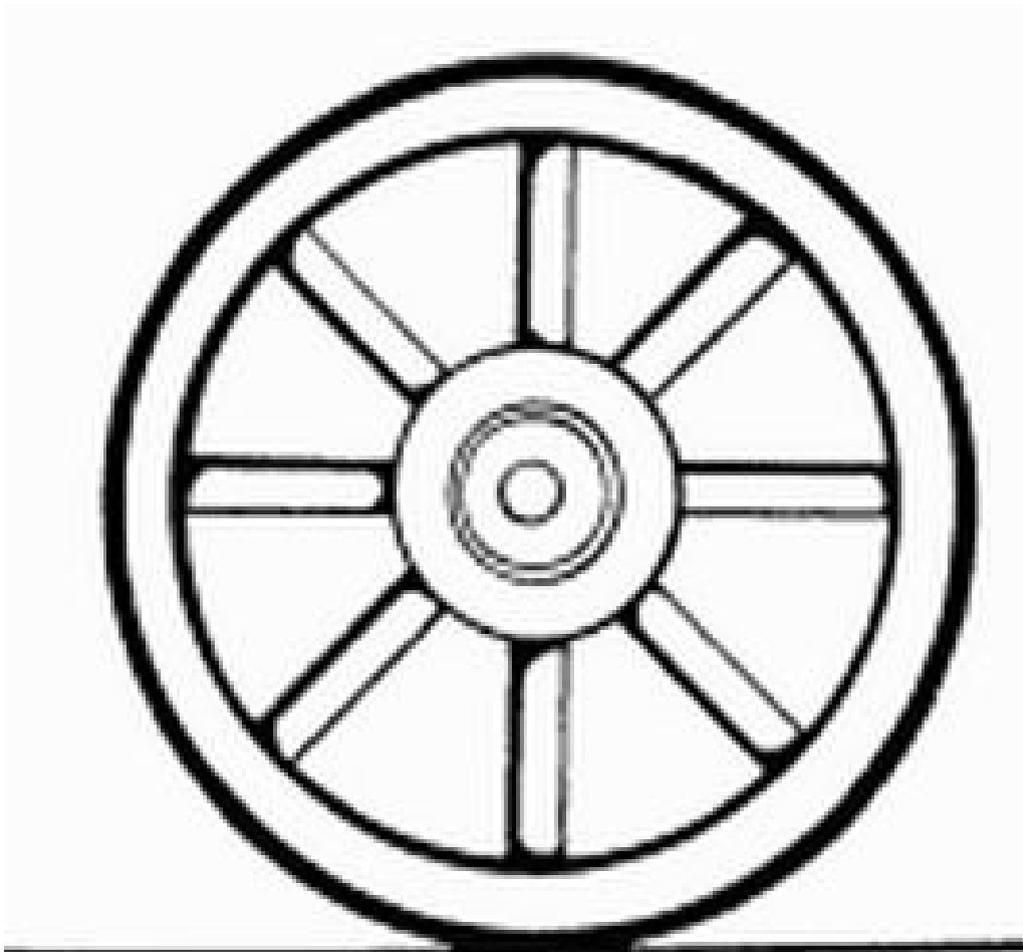

Picnic Meeting at Trintiy Bellwoods Park, Toronto

July 26th, 2017 (Educators, Social Work, Biz & Marketing, Cultural & Creative Contributors)

WHY AM I WHO I AM?

You are perfect just the way you are. You have been selected for your selfless compassionate ways, your open-mind attitude for inclusion and your skills & experience as a progressive thought-leader who has the potential to shape our future in a positive way. But *who* are you?

BELOW: Fill in the empty spaces. **FOR SPOKES:** Fill in tactile skills, accredited designations, distinctive attitudes that make you an exceptional professional in your discipline as it relates to you being here. **IN PIES BETWEEN SPOKES:** Fill in how you are best compassionate or optimally open-minded that you will bring to the table in developing this product. **AROUND THE TIRE:** List the positive attributes you present to the world. **IN THE INNER RIM CLOSE TO THE CORE:** List the positive attributes that you are too shy to reveal that you know will help inspire change.

MY MANTRA OF OBJECTIVES

A mantra is another way of expressing a sacred/special prayer or objective that is usually announced outside of ourselves to allow it to exist as sacred or special. Often times, we keep our thoughts compiled within our brain without a chance to *air them out* to make sense of what we truly want. This is our individual and collective opportunity to reveal our goals for this project.

WHEEL AT LEFT: UNIQUE SKILL SETS

Commit to (3) three unique and specific skills that you bring to the table that will be unlike other contributors of similar qualifications. Keep in mind that we are developing a children's book with progressive themes to inspire changes toward a world that is more human-friendly and eco-conscious, everyday.

In each of the (3) three pie-areas, explain these unique skills in detail.

WHEEL AT RIGHT: SKILLS TO IMPROVE

Commit to (6) six different ways that you will stay vigilant about improving throughout this product's progress and during your time in collaborating in a team dynamic.

Consider one goal from each area of yourself (This is only a suggestion framework)::

- a) Your physical sensory self
- b) You in your physical environment
- c) Your mind or mindfulness
- d) Your emotional self or empathetic self
- e) Your intelligent self
- f) Your intuitive self
